Let's go phishing! Email security trends to keep up with in 2022

Although it's good to stay optimistic for 2022, it's difficult to deny that the main challenges the world has been facing since the beginning of the pandemic are still among us. Cybersecurity continues to be one of the key global targets for criminals in a world where an ever-increasing percentage of the workforce is shifting to working from home (WFH), leaving organizations more vulnerable than ever to a wide array of threats.

CISA Cybersecurity Workforce Training Guide

The Cybersecurity and Infrastructure Security Agency (CISA) developed this Guide to help prospective and current cyber professionals understand how to chart a prosperous career path. As a cybersecurity professional, you are at the forefront of CISA's mission to mitigate risks to our Nation's critical infrastructure. You play a crucial role in securing cyber space and critical infrastructure – from information technology and government facilities to emergency services and healthcare — that form the backbone of our communities. To put this mission into practice, you must keep your skills sharp, so you're ready to tackle any new challenge.
